

X Pod

Data Sheet

evolutiondome™

Product Variations

Evolution Dome presents a brand new range of high performance, beautifully designed, and practical temporary event structures.

Light weight, easy to setup and remove each of the X Pod range comes in its own storage bag and includes everything that is required for use. Creatively designed, Evolution Dome products are the worldwide leader in inflatable structures.

X Pod System

The range includes a very simple to install meeting point or exhibition hub for indoor and outdoor use, made from strong rip stop nylon with taped seams. Superb curved design, extremely quick to inflate and comes with a storage bag, ground sheet and fan.

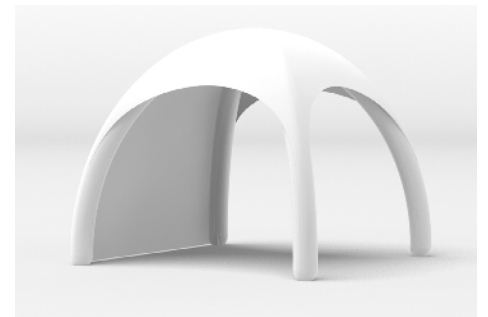

Available in the following sizes:

4m x 4m

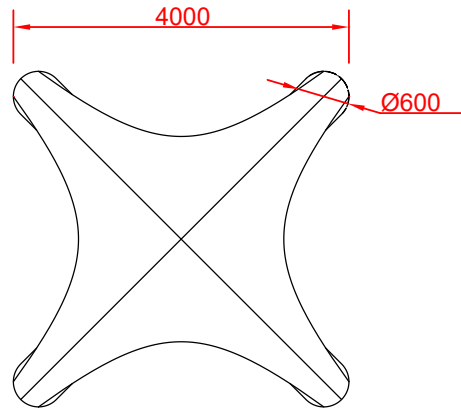

5m x 5m

6m x 6m

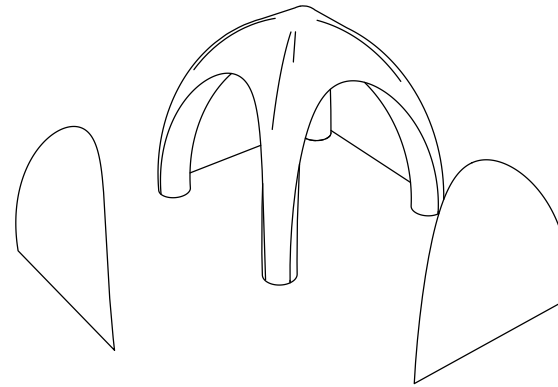

The Evolution Dome range of structures can be tailored to suit your event needs, we offer branding with options including direct print and replaceable printed covers.

Product Enhancement

Branding

Branding can be applied permanently to any of the inflatable structures at the source of production. The canopy as well as the zip in walls/doors can be printed.

Temporary branding can be added as Dacron adhesive panels at any stage. Please note that not all artwork is suitable for printing on our structure range. It is advised sample artwork be supplied in an .eps format so we can advise the best solution.

Additional Zip In Walls/Doors

Spare walls and doors can be ordered, both plain and printed.

Link Roof

When using several structures, a link roof can be zipped in to join the two structures together.

Flooring

Flooring is available upon request and is offered to suit all event needs. We offer a hard wearing, plastic, snap lock flooring. This offers light weight flooring and ideal for grass and concrete. It can be further enhanced by adding a finishing carpet.

Ballast Kit

The X Pod range comes with a grass fixing kit. If using the structures on hardstanding, a ballast kit will be required to secure the structure. This comes in the form of sand bags that surround each leg, weighing down and anchoring the structure to the ground.

Transport

By its nature an inflatable structure packs down to considerably less than its inflated size which makes the structures ideal to store and use again. Each product will be supplied in its own storage bag and will be easily transported in and out of any venue.

Warranty

Evolution Dome offers a 12 month warranty on the manufacture process and materials if the user manual and install guides are followed. Due to the nature of weather and installation conditions, we reserve the right to carry out an onsite inspection and report which way the warranty will be met.
